
Title: Ponderings Purpose 2

Author: Aleph Aeirs

Support Community Building

Members of the HoA will be encouraged to play leadership roles, and inspire others to play leadership roles, in the events and organizations that define our culture. We will work together to support established, and yet to be established, guilds, organizations and events. We will encourage, and support the efforts of the realm to create platforms for the advancement of social and cultural interaction. This corner stone represents our acknowledgement that the realm as we know it must support inclusiveness for all Children of Light, regardless of their particular social designations. It acknowledges the reality that a life of meaningful social interaction and cultural enrichment is an endeavor of the highest order.

Support of the Health and Well Being of the Realm

The establishment of our Hospice Network, and our flagship hospital, the Healing Hand, is complete. It now falls to us to encourage others to utilize these buildings for their intended purpose. The best medical and medicinal minds of our realm must be supported

to do their good works,
and the Hospice Network
is the means to that
end. We must support
the advancement of
medicines and technologies
that will encourage the
growth of a community
of healers and physicians.

. We must research
cures for maladies both
common and uncommon,
and we must offer our
services to any and all
who require them,
regardless of their ability
to cover expenses, or
their personal philosophies
as it relates to the
Virtues. This cornerstone
affirms the HoA's
commitment to a holistic
approach in our vision of
the Virtues in action.

And so these are the
four corner stones of
the HoA. These are the
measurable, quantifiable
actions that determine
our success and failure
as an organization.
Although the wheels are
already in motion, and
although these
cornerstones already exist
and serve as the pillars
of the HoA, your input
and questions are always
welcome.
Yours in the Light,
Aleph Aeirs
